Re: Reservoir Water Application

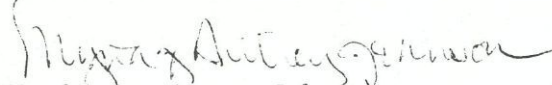

Your application and check No. 11347 in the amount of \$10.00 are being returned for the following reasons:

1. You will need to indicate the number and types of domestic units to be provided water under this application.
2. It would appear from your Section Map description that the diversion point for the reservoir would be in the SE $\frac{1}{4}$ SW $\frac{1}{4}$. Please clarify if that information is incorrect.
3. A copy of a legal description has been placed in the space for the impounding structure legal description. It would appear after studying the application that this description belongs in the place of use legal description space. Please review and clarify.
4. If the above assumption is correct, the place of use does not cover 420 acres. It only covers 130 acres. You will need to provide the remainder of the legal description. Otherwise, any permit that may issue would be only for approximately the 130 acres presently described.
5. You will need to provide specific written driving instructions to your property on the attached Section Map page.

You will retain your priority date of December 16, 1992, if you return your application, check and all the above-requested information by January 21, 1993.

You may contact this office at (509) 575-2800 if you have any questions.

Sincerely,

Myria J. Autrey Johnson
